

Roadmap

- Updated for Q3
- 15.0 and 15.1 milestones*

* For periods where “code slush” is shown, only limited changes can be accepted into that specific release.

About this roadmap

- This roadmap was produced for Q3 2025.
- We used the roadmap to help us map out and schedule work in an order that made sense for our development team.
- It should not be read as a guarantee on when things will be delivered, but we will create an updated roadmap each quarter to help you see how things are going.
- We also create monthly update reports that you can read at <https://github.com/FreeBSDFoundation/proj-laptop/blob/main/monthly-updates/>
